

Poultry Fogging System

Features:

- ~ Fogging System helps to reduce the poultry shed temperature
- ~ Economical system yet effective for poultry farmers
- ~ Thousand of self installation done by every year by farmers
- ~ Room temperature can be attained
- ~ It can be used along with fans to maintain room temperature
- ~ It control mortality rate during the months of summer
- ~ Very less power consumption

Technical Specification:

4-Way Fogger		Electric Pump / Motor	
Static Mister	7.5 l/h, per Fogger	Voltage	225
Flow Rate	4.0bar (4kg/sq./cm)	Power	0.5hp(0.37kw.) / 1hp(0.75kw.)
Working Pressure	3.5-5bar(3.5-5kg.sq/cm)	Fogger Opr. Cap.	0.5hp 40nos. / 1hp 80nos.
Recommended Filtration	130micron/120mesh	Flow Rate	255 to 650LPH
Inlet connector	Press Fit	Inlet / Outlet	25 x 25mm
Cross	4-nozzle configuration		
Features:	- Anti-leak design		
- Inbuilt NRV	- Acid Resistant		
- Uniform Fogging	- 65micron drop
